

# Hand Towel Services

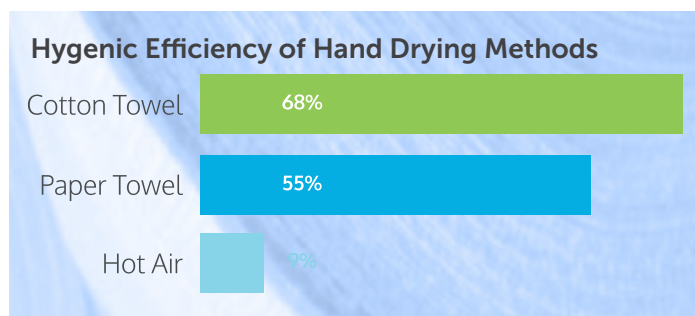

Cotton Hand Towels - A Sustainable Choice

## A lockable metal cabinet with 40 metres of pure cotton towel.

Cotton towels reduce bacteria by 85% as compared with air dryers, which have shown increases bacteria\*. Clean towel is located above and isolated from the used towel and it is impossible to pull back used towel.

### Hand Towel vs Paper Towel

- No paper towel litter
- Paper towels must be landfilled or incinerated
- One 45 yard cloth towel processed 75 times, replaces over 30,000 single fold paper towels
- The Most Hygienic Hand Drying Method
- Removes more bacteria from hands than paper or hot air
- Is approved by the US Department of Health and Human Services
- Employee preferred
- Employees prefer the feel of cloth compared to paper or hot air

- Cloth is up to 4 times more absorbent than paper
- No fire hazard

### Maximum Value

- No solid waste disposal cost
- Reduces janitorial costs
- No costly plumbing stoppages due to flushed towels
- No inventory or capital investment required
- Costs less than paper's total cost

### Cost

- Hand Towels \$9 each per service with spares left on site
- Dispenser free including maintenance
- Choice of Grey metal or white plastic dispensers
- Minimum service call 2 towels
